

## The Journal Usage Statistics Portal (JUSP)

The Journal Usage Statistics Portal (JUSP) is a Jisc-funded service that provides a “one-stop shop” for libraries to view, download and analyse their journal usage reports from multiple publishers. It responds to current financial challenges with time and cost saving benefits.

### JUSP key figures

Have you ever wondered how big JUSP is or how many people use it? Here are a few key figures from the end of July 2014 to answer some of your questions:

Number of individual usage statistics: over 225 million

Number of journal titles: over 22,000

Number of participating publishers and aggregators: 63

Number of participating libraries: 169

Number of logins to the JUSP portal by these libraries: nearly 43,000

Number of reports run by these libraries: over 82,000

### JUSP welcomes new publishers

We are pleased to welcome Lippincott Williams & Wilkins, an imprint of Wolters Kluwer. JR1 and JR1a reports are available from January 2009 to June 2014.

We are also pleased to welcome EbscoHOST. Data are available from January 2012 to July 2014.

Following consultation with our Community Advisory Group, we have decided to present this statistics provider as our fourth aggregator alongside ingentaconnect, Ebsco EJS and SwetsWise, and the reports have been updated accordingly.

We continue to work with SIAM, Informa, Thieme, and ProQuest and hope to have their data available in the JUSP portal shortly.

### JUSP and the SCONUL return

You will shortly be able to run the JUSP ‘SCONUL returns’ report for 2013-14 and use it to help you complete your SCONUL return. We are waiting on the last couple of publishers to release their data for July and will let you know when data collection is complete. You can also check this using the ‘your data’ tab from the Welcome screen to see if there are still any red crosses against any of your data.

The report will give you a list of all publishers for whom we hold data in JUSP and in the first column is the direct JR1 figure that you will need for the SCONUL return.

You can download this report as a CSV file and then add JR1 or equivalent results for all publishers that are not included in JUSP, to arrive at a total figure for the SCONUL return.

Note: you should use the ‘direct JR1’ figure for each publisher and then add in a total for SwetsWise, EbscoEJS, EbscoHOST and Publishing Technology if you use any of these. This is because at present we only record usage of these services relating to publishers already in JUSP. To get totals, you will need to go to the relevant intermediary website.

### Contact Us

You can keep up-to-date with project developments by visiting our website [www.jusp.mimas.ac.uk](http://www.jusp.mimas.ac.uk).

We welcome your views on your experience of using the website and portal.

Please get in touch if you have comments, questions or ideas for future developments.

## JUSP team out and about

### National Acquisitions Group Conference, 3-4 September 2014

Paul Meehan and Anne Reed will be presenting a workshop entitled "JUSP: Getting to grips with your usage statistics" at this conference to be held in the Royal York Hotel, York. A presentation will be followed by a demonstration of the JUSP portal and a question and answer session.

### Library Assessment Conference: Building Effective, Sustainable, Practical Assessment, 4-6 August 2014

Jo Lambert spoke at this conference held in Seattle from 4-6 August 2014. Her paper was entitled 'Measuring Impact: Tools for Analysing and Benchmarking Usage' and covered both JUSP and IRUS-UK. A copy of her presentation is now available on the JUSP website <http://jusp.mimas.ac.uk/docs/MondayLambertPaper.ppt>

Much favourable feedback was received including this comment on Twitter:

@pamelajacobs

Desperately want Canadian version of JUSP - JISC's Journal Usage Statistics Portal! #lac14

## How can we help you?

We provide a range of support materials including:

Guides to the reports

<http://www.jusp.mimas.ac.uk/guides-to-reports/>

Use cases <http://www.jusp.mimas.ac.uk/use-cases/>

FAQ <http://www.jusp.mimas.ac.uk/faq/>

A glossary <http://www.jusp.mimas.ac.uk/glossary/>

Let us know if you have any suggestions for additional support materials that would help you to use JUSP more effectively.

## COUNTER Release 4 update

Here are the latest figures for the implementation of COUNTER Release 4 by participating publishers:

Publishers with data in JUSP: 64

Publishers providing COUNTER 4 reports: 49

Publishers not yet providing COUNTER 4 reports: 15

Publishers providing the new JRI GOA report: 39

## JUSP article in CILIP Update

An article about JUSP entitled "A pioneering portal to e-journal usage statistics" appeared in CILIP Update, June 2014, pp. 37-39.

A copy is now available through the JUSP website <http://jusp.mimas.ac.uk/docs/cilipupdate.pdf>
