

The Journal Usage Statistics Portal (JUSP)

The Journal Usage Statistics Portal (JUSP) is a JISC-funded service that provides a “one-stop shop” for libraries to view, download and analyse their journal usage reports from multiple publishers. It responds to current financial challenges with time and cost saving benefits.

JUSP Community Advisory Group

The JUSP Community Advisory Group (CAG) held a very interesting and productive initial meeting on Friday 7 December.

Among the items discussed were JUSP and KB+, achievements in 2012 and future priorities, communications and support, and sustainability plans. There were a number of suggestions and action points that we're now discussing within the JUSP team and we'll be bringing you more news of these later.

JUSP workshop in Cardiff

Bookings are now open for the JUSP workshop at Cardiff University on Wednesday 13 February (10am-4pm). This will follow a similar format to previous workshops, with presentations from the JUSP team and from libraries, hands-on sessions, and the chance to meet and talk with other JUSP users.

All JUSP members are welcome and we look forward to hearing from WHELP libraries and others.

To book your place, go to <http://www.eventbrite.co.uk/event/3368835277#>. There is no cost for this event, and lunch and refreshments will be provided.

More help with the SCONUL return

The SCONUL return report continues to be one of our most popular features. As well as helping with the question 'number of article downloads', we now have a new report 'List all deals and title counts' which gives you a list of all the deals held in JUSP and the number of titles in each. You can click on the numbers to get a complete list of titles in that deal or download the report to identify your own deals and use this as the basis for answering the SCONUL question on 'number of e-journal titles'.

New publisher

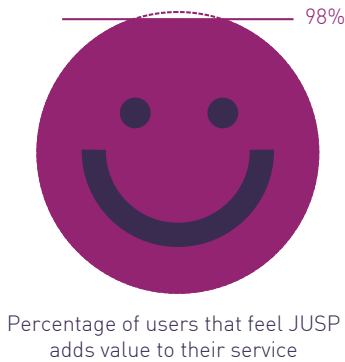

Portland Press is the latest publisher to join JUSP this month. They are working to implement SUSHI at the moment and we'll provide more information on this in future months.

Contact Us

You can keep up-to-date with project developments by visiting our website www.jusp.mimas.ac.uk. We welcome your views on your experience of using the website and portal. Please get in touch if you have comments, questions or ideas for future developments.

JUSP a growing trend
